As a junior full-stack developer, I possess a robust skill set including **HTML, CSS, JavaScript, React, Redux, Nodejs, Express, MongoDB, Git, Rechart and Tailwind.** I excel in designing and maintaining responsive websites that offer a smooth user experience. Drawing from my various industry experience, I thrives in collaborating with cross-functional teams and excelling in environments that require seamless cooperation.

EDUCATION

Solely Bootcamp   May. 2023 –   Jan 2024

- Immersive software development course with a focus on full-stack web development, which entailed over 1000 hours of coding

The University of Texas at Dallas   Sep. 2012 –   May 2014

 Master of Science in Finance &Master of Business Management

PROJECTS

Sneat Admin Dashboard   **live** | **github**

- Streamlined business operations by building an admin dashboard and performance tracking system using the MERN stack (MongoDB, Express, React, NodeJS)
- Implemented interactive tools like calendar, dark mode, and theme settings with React, and Tailwind CSS, providing users with a fluid and effective workflow
- Utilized Rechart UI for diverse data visualization, providing valuable insights and fostering growth.
- Featured with a user login/signup system using JWT authentication and allowing users to update and delete information

Salinaka E-commerce Website   **live** | **github**

- Implemented a e-commerce website using React, MUI Core, and Express for a small business selling glasses
- Created an intuitive swipe interface using React and CSS, delivering an enhanced user experience through the effective display of relevant user details
- Linked a third-party API (Stripe) to support credit/debit payment methods

Covilla Journey Website   **live** | **github**

- Developed a travel agency website that offers introductions to accommodations, transportation, and tour guides for various destinations spread across continents by using JavaScript, HTML, and CSS
- Implemented scrollbars, various animations and a slider with JavaScript to craft user-friendly and beautiful web designs

EXPERIENCE

Wondershare Technology Company   April 2019 ~ May 2020

- Worked as Acquisition analyst, responsible for identifying potential acquisition targets to grow business

Morningstar Inc   June 2007 ~ Aug 2011

- Joined as a fund data analyst and then promoted to the team lead of a team with 13 team members.
